Forms and Purposes of Student Assessment

Assessment *for* Learning vs. Assessment *of* Learning

The goal of formative assessment is to *monitor student learning* to *provide ongoing feedback* that can be used by instructors to improve their teaching and by students to improve their learning.

The goal of summative assessment is to *evaluate student learning* at the end of an instructional unit by comparing it against some standard or benchmark.

What is peer review/assessment?

- a structured, collaborative learning process for students to critique and provide feedback to each other on their work

Go to **wooclap.com** and use the code **YFOITC**
