

The UTQ competencies:

Designing
education

Teaching

Assessment

Student
supervision

Evaluating your
own teaching

Didactic bootcamp

Evaluating own education Vision education & 'you as a teacher'

After this session, you can:

- *value different curriculum orientations from your own perspective on education;*
- *carry out some introductory work forms yourself in a classroom setting;*
- *make a personal qualification of a good teacher and what this means for your own development points;*
- *answer relevant preparation questions for the first lectures.*

1

2

Teaching Didactic skills

After the session you will know:

- *how to build and give clear instructions*
- *how to help students in their thinking process with scaffolding*
- *how to give effective feedback, for example during your lessons*
- *how to take on a coaching role in one-on-one conversations with students*

Teaching Activating teaching

After this session you can:

- *conduct a lecture yourself in which the principles of activating education are expressed*
- *apply various activating working methods (for different didactic purposes) in your own teaching practice*
- *use appropriate UvA-supported tools to enrich online and physical education*
- *name the most important characteristics of blended learning*

3

4

Teaching Motivating students & Didactic in-depth

After the session you can:

- *apply techniques yourself, based on various motivation theories, that aim to promote student motivation*
- *apply motivational conversation techniques to individual students*
- *apply coaching techniques to promote student self-regulation*
